The Premier of Gauteng**

Dear Premier Makhura

RE: MEDICO-LEGAL CRISIS IN SOUTH AFRICA

In the spirit of Thuma Mina we, a group of concerned South Africans and Professional Organisations, offer our collective expertise and goodwill to advise you on the medico-legal crisis in our country. Being acutely aware of the human suffering, loss of economic productivity and multi-billion rand financial losses, which are inflated by negligence, maladministration, unprofessional conduct and corruption, we propose to address you frankly and constructively on the following:

- ✚ The RAF, Determination of Serious Injuries, HPCSA Appeal Tribunals and Litigation Practices that overburden our Courts of Law.
- ✚ The RABS Bill – Cost Implications and Infringement of the Rights of Vulnerable Members of Society (particularly children, impoverished, illiterate and brain injured adults).
- ✚ Motor Vehicle Crashes and Deaths on South African Roads.
- ✚ Clinical Negligence by Healthcare Practitioners, with focus on Constructive Upstream (prevention) and Downstream (resolution) Interventions.
- ✚ The Benefits of Mediation compared to Litigation.
- ✚ The South African Medico-Legal Coalition and establishment of a South African Medico-Legal Data Institute.
- ✚ SAMLA Submissions to the Law Reform Commission.
- ✚ Access to Courts and Establishment of Specialised Medical Courts.
- ✚ Centres of Excellence for care of Children with Cerebral Palsy.
- ✚ The Establishment of an Independent Multidisciplinary Regulatory Authority, with Codes of Professional Conduct and Disciplinary Procedures.
- ✚ The Substantial Body of Knowledge and Goodwill that has been Side-Lined by Government over the years.

The experts who, at short notice, have already confirmed their willingness to address you on Sunday 5 May 2019, are:

Judge Neels Claassen. Retired judge, Mediator and Chairperson of the South African Medico-Legal Association.
